

Clinical Pastoral Education: Research Literacy Component Evaluation

1. Did the research literacy component of CPE (articles, readings, webinars and the following didactics: “Why Research is Important for Spiritual Care”, “Different Types of Research”, and “Introduction to Case Studies”) influence your understanding and/or practice of spiritual care/chaplaincy? (y/n) Please describe your answer in detail.
2. Would you be likely to seek out and use research in your future learning and professional development? Please explain.
3. After this course, do you believe practicing research literacy and keeping up with current research are important skills for the field of spiritual care/chaplaincy? Please explain.
4. What was the most effective part of the research literacy component curriculum?
5. What could be changed or improved about the research literacy component curriculum?

6. Any additional comments or suggestions about the curriculum?
